

Demagnetizer DMH

DEMAGNETIZER

- ✓ Removal of unwanted magnetism.

Hand demagnetizers are used for demagnetization of large parts or pieces that cannot be transported, for example: injection molds, punching tools, embedded devices, stuck tools etc.

MODEL	POLES DIMENSION (mm)		H	POWER (W)	Weight (kg)
	A	B			
Hand Demagnetizer	120	100	180	1300	5.5
