

# Rectangular Permanent Electromagnets

## ELECTROMAGNET WITH PERMANENT MAGNETS

- ✓ Dimensions:  
Length from 150 to 200 mm  
Large 60 mm
- ✓ Holding force from 1.000 to 1.530 N
- ✓ Compact design
- ✓ Different holding systems

This series of rectangular electromagnets are mainly used for applications with long waiting times, they add safety as they do not need current to maintain their activation.

The coil is resin coated (protection class IP65 or IP54). The magnet housing and the outer surface are galvanized. The anchoring can be done through the threaded hole

| MODEL                   | DIMENSIONS (mm) |    | M x deep (mm) | Holding Force (N) | Power (W) | Weight (kg) |
|-------------------------|-----------------|----|---------------|-------------------|-----------|-------------|
|                         | BxL             | H  |               |                   |           |             |
| 01 31007A00             | 151,5x60        | 50 | 8x10          | 1000              | 27,9      | 2,2         |
| 01 31008A00             | 201,5x60        | 50 | 8x10          | 1530              | 40        | 3           |
| Other models on request |                 |    |               |                   |           |             |
