

Permanent magnetic chucks RM

FOR GRINDING, MILLING AND TURNING

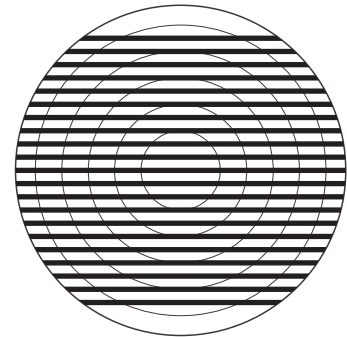

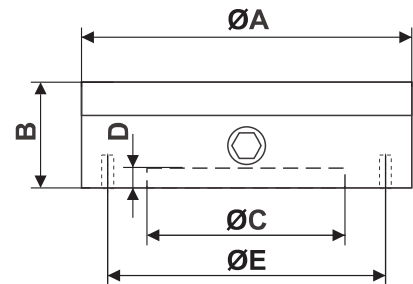

- ✓ Material: Ferrite Magnet, Alu.
- ✓ Polar pitch: 5 + 8 mm.
- ✓ Holding force: approx. 140 N/cm²
- ✓ Magnetic Flux Height approx. 8 mm

The RM magnetic circular planes are used for mechanical machining of milling, turning and grinding of medium size parts.

Magnetic force is adjustable at different levels.

On the surface can be added an element for centering the workpiece.

MODEL	DIMENSIONS (mm)					Holes	Poles	WEIGHT kg	V-Max u/Min
